PRIOR to skin consultation and OBSERV® 520 skin analysis

- There is no specific pre-treatment care for a skin consultation or skin analysis however the ideal time to assess your skin is first thing in the morning. If you are able to come to the store without makeup, moisturiser or SPF on your face, this will show a true reading of the skin type and its condition. We will cleanse your eyes and face with a gentle cleanser to get a thorough visual of your skin & it's condition.

POST skin consultation and OBSERV® 520 skin analysis

- After skin consultation & skin analysis we will comfort your skin with the right targeted serum as well as a hydrator and SPF.
